ABOUT

Currently pursuing a Bachelor of Computer Applications (BCA), I am a self-driven social media enthusiast who lives at the intersection of creativity and technology. I leverage cutting-edge AI tools — ChatGPT, Meta AI, and advanced ad platforms — to craft data-informed content strategies, design scroll-stopping campaigns, and grow communities organically. No traditional experience, but a relentless learner who treats every platform as a lab.

EDUCATION

Bachelor of Computer Applications (BCA)

Currently Enrolled · Expected Graduation 2026–27

Relevant coursework: Digital Media, Web Technologies, Data Structures, Programming Fundamentals

Pursuing

WHAT I CAN DELIVER

01

AI-Driven Content Strategy

Using ChatGPT & Meta AI to research, ideate, and build month-long content calendars aligned to brand goals and platform algorithms.

02

Meta Ad Campaigns

Setting up and managing Facebook & Instagram ad campaigns — from audience building to creative copywriting and budget allocation.

03

Short-Form Video Scripting

Writing high-retention Reels and TikTok scripts using AI-assisted hooks, trending audio research, and storytelling frameworks.

04

Brand Voice & Identity

Crafting cohesive brand personas across platforms — tone guides, visual consistency, and audience-specific messaging using AI tools.
